#### Key Responsibilities:

- Define and communicate the product vision and strategy
- Collaborate with engineering, design, and marketing teams to develop product roadmaps
- Conduct market research and gather customer feedback to inform product decisions
- Analyze product performance and user feedback to drive continuous improvement

## Education

- Bachelor's in Computer Science from University of Atlassian
- Technical writing certification
- Product management certification
- Training in strategic thinking and problem-solving

### Tech Writer | OtherSoftware (*December 2016 - May 2019*)

I am a talented and detail-oriented Tech Writer who is responsible for creating high-quality technical documentation and content that effectively communicates complex information to our users.

#### Key Responsibilities:

- Write clear, concise, and accurate content for user guides, API documentation, and release notes
- Conduct research and interviews with subject matter experts to gather technical information
- Ensure that all documentation complies with company standards and industry best practices
- Review and edit existing documentation to improve clarity and usability
