

# 👋 Hi, Maggie!

Welcome to **Good Software**. We're glad you're here!

I've put together this onboarding plan to help you get up to speed in your new role as a Manager on the WiseApp team. Feel free to reach out if you have any questions. 😊

- Ericka, the Executive

## 🧠 Guiding thoughts

- **Take time to learn.** Don't get sucked into the minutia of decision-making or project involvement too early - there will be plenty of time for that later. In your first 30 days, try to focus on getting comfortable and learning how things work.
- **Invest in relationships.** By day 60, you'll be in execution mode. In your first two months, spend as much time as you can getting to know people and forming relationships.
- **Don't be afraid to ask.** No one expects you to know how things at work right away. Take advantage of that and ask for help when you need it.
